*My Home...
My Electricity...!*

SAARTHI SOLAR

Residential | Commercial | Industrial rooftop solar installation

Why Choose Solar Energy ?

RISING ELECTRICITY COSTS : The cost of electricity has been on a steady rise in recent years, affecting households, businesses, and industries worldwide.

ECO-FRIENDLY, ZERO POLLUTION: Solar energy is a clean and renewable source of energy, producing no emissions or pollution.

ENERGY INDEPENDENCE : By harnessing the power of the sun, you can generate your own electricity and reduce your reliance on the grid.

PRESERVE NATURAL RESOURCES: By using renewable sources like solar power, we reduce our dependence on limited natural resources such as coal, oil, and natural gas.

Solar Energy Benefits ...

Go Green... Go Solar...

Your Investment, Your Returns :

- Systems are available from 3KW to 1MW
- Payback in 3–5 years, then 20+ years of nearly free power.
- Flexible financing/EMI options available.

Financial Security :

- 100% reduction in electricity bills.
- Sell back extra power to the grid through Net Metering.
- Property value increases with solar-equipped homes.

Environmental Contribution :

- 1 kW = reduces ~1.5 tons CO₂ every year.
- That's like planting 25 trees annually.
- For a 5 kW system: it's like having 125 trees working for you, every year.

Reliability :

- Works even on cloudy days (with grid + net metering).
- Low maintenance (just cleaning panels a few times a year).

Step
1

FREE SITE SURVEY

We analyze your rooftop, bills, and energy needs.

Step
2

TRANSPARENT PROPOSAL

You get a clear design, cost breakdown, savings forecast, and subsidy details. No hidden charges.

Step
3

HASSLE-FREE INSTALLATION

Our certified engineers handle everything : structure, panels, inverter, wiring, testing.

Step
4

APPROVALS & SUBSIDY

We manage all government paperwork, net metering, and subsidy applications on your behalf.

Step
5

POWER ON & RELAX

Start generating your own clean electricity and enjoy reduced electricity bills.

Why choose SAARTHI ENTERPRISES ?

- Trusted by 1000+ happy customers.
- Certified, and government-approved company.
- Expertise and Experience: from small homes to large industries. We know every approval, every wiring challenge, every roof type.
- Customized solutions designed for your specific needs.
- End-to-End Responsibility: Consultation → Design → Installation → Subsidy → After-sales support.
- Quality Without Compromise: We use Tier-1 certified panels and branded inverters with international standards. All components come with factory warranties and proper documentation.
- Warranty and Maintenance: We stand behind the quality of our work and offer a comprehensive warranty on all our solar installations.

Warranty :

- **Solar Panel** : 25 Years (Performance)
- **Inverter** : 7 Years
- **Service** : 5 Years (3kw-20kw), 6 Years (Above 20kw)

Our Brands :

- **Solar Panel & Inverter** : Waaree, Tata, adani
- **Wiring** : Polycab, RR
- **Structure** : Appollo, Tata, JSW etc. (Rustproof Galvanized Iron)
